B-19-4083	MATATHIA, SANFORD & BETHANN	12/18/2019	023-011	134	MAIN STREET (COTUIT), COTUIT	Residential	<p>Our plan is to renovate this house in several steps. The initial step will be to “gut” the interior of the structure by removing most appliances, cabinets, closets and wall coverings (all without change to the house frame, support structure or bearing walls). After the inside space has been cleared out, we will complete certain energy conservation, pest elimination and general sanitation work.</p> <p>The energy conservation work will include several measures recommended by the Cape Light Compact Program including a secondary door at the base of a bulkhead, a moisture barrier over the dirt floor crawlspace, and closed cell foam insulation on the foundation walls. It is our understanding that these energy conservation measures will be covered by a separate building permit application to be submitted by Rise Engineering and/or Cape Cod Insulation. Additional energy conservation measures to be completed by the homeowner include the air sealing of doorways.</p>		\$1,000.00
