The roof was in a very bad condition due to previous owners negligence by not maintaining it .It was unsafe and it did collapse 3 years ago , the building was inspected by a structural engeniur and I was sugested to ad 2 additional 25 feet steel beams and 6 columns to support the weight of the roof plus the snow load during the winter. Also the concrete slab was determined not to hold the weight of any modern car , so a new concrete slab was neded to meet the curent standards. This was approved twice by the Historical committee of Old Kings Highway. First time the approval expired , the second time was prior the Covid19 .
