None

**Harbormaster Report:**

Assistant Harbormaster - Brian Taylor discussed new “no wake” buoys purchased by the Harbormaster Division. These new “no wake” buoys will be larger and easily visible by the public when entering Hyannis Inner Harbor. Mr. Taylor also spoke briefly about mooring permit holders that did not renew in 2018. These individuals received “please remove gear letters”. Many have contacted the Harbormaster Division and will be adhering to the removal of gear, some people are unhappy with the letters and others have request to renew their mooring permits.

The Harbormaster office has offered 163 people moorings and has issued 51 new moorings before July 1<sup>st</sup>. This is an improvement to last year when the Harbormasters office offered 147 moorings and issued 43 new permits. Mr. Taylor has been very aggressive with offering new moorings and will continue to do so. This is because moorings are now being offered in bulk. To efficiently utilize these areas we have sped the process up. Mr. Taylor communicated he wants waitlist applicants to have updated email and phone information.

Mr. Everson discussed the need for dingy storage racks at the Cotuit Town Dock. He asked the Harbormasters office to consider these storage racks. Mr. Taylor said this will be brought forth and discussed inter office.

Mr. Neary asked about dingy storage at town ways to water. He asked what happens to dinghies if they are left. Mr. Meade discussed the process and communicated we do remove them and are discussing permitting these dinghies.

**Adjournment:** There being no further business, the meeting adjourned at 8:15 pm

Respectfully submitted,

Brian W. Taylor, Assistant Harbormaster/Mooring Officer
