Many people are struggling during these times, and we want you to know: You are not alone! But we need to know how you are, and how we can help. Help us, help you, by filling out a very short survey so that we may learn about what services and supports you really need right now. The survey will only take a few minutes, and will help us serve you better. Here is the link:

<https://www.surveymonkey.com/r/38ZHNXY>. **Our doors may be closed, but we are always here for you if you need us, and we encourage you to reach out to us at 508-862-4750.** Although working remotely, staff is checking messages, and all calls will be returned! We are in this together, and the BCOA staff is ready to help you! We hope you'll take advantage of the **Grab & Go food distribution program which is providing a free Lunch for Barnstable residents over age 60. Water Pollution Control Request

The Town of Barnstable's Water Pollution Control Division requests that you please do not flush any disinfecting wipes down the toilet. These wipes clog sewage pumps inside of the Town's sewage pumping stations. This requires staff to manually remove the wipes from the pump in order to put the pump station back into operation. Flushing wipes down the toilet endangers the health and safety of Town employees and increases the risk of a sewage overflow, putting public health at risk. Please discard all used wipes into a trash can. Thank You.

Hyannis Water System Water Flushing Program

Flushing signs will be posted in the areas of work

After flushing let the cold water run for a few minutes.
