# Great Streets Downtown Hyannis: A Walkable Heart for Cape Cod

Early Design Concepts Presentation + Open House!  
(Return to Two-Way Travel Downtown)

**January 25, 2023**  
**7-8PM Presentation**  
**8-9PM Open House**

**Barnstable High School Cafeteria**  
**Enter through the Gymnasium**  
**744 W. Main Street, Hyannis**

Light refreshments will be served. No RSVP required.

After collecting community input from a variety of stakeholders, walkability expert Jeff Speck and the Great Streets team are excited to share early street design concepts. These are intended to address key questions, such as:

- How can vehicle traffic flow more efficiently?
- How can pedestrians be prioritized on the street?
- How can we create and attract more town vitality?

We can't wait to see you again at this critical phase of the project. Your feedback from this meeting will be used to refine the final designs that may be built in the near future.

# 5 Reasons to Compost at the Transfer Station

GET FOOD WASTE OUT OF THE LANDFILL AND GIVE IT NEW LIFE AS COMPOST!

## Environment Benefits

Largest environmental benefit of any type of recycling. Compost can help aid reforestation, wetlands restoration, and habitat revitalization efforts by improving contaminated, compacted, and marginal soils.

## Reduces Methane

Municipal solid waste (MSW) landfills are the third-largest source of human-related methane emissions in the United States, accounting for approximately 14.5 percent of these emissions in 2020.

## Good for the Planet

Compost helps plants grow faster and remove more CO2 from air. Provide nutrients and prevent soil erosion: less chemical fertilizer and irrigation.

## Land Use Benefit

Waste reduction is another benefit of compost, since compost is generally made from waste (food scraps, organic byproducts, etc) that is diverted from landfill flows. This reduces the amount of waste going to landfills and it upcycles those materials into a productive, environmentally beneficial product.

## IT'S EASY!

Get your FREE compost bin and liners in the Transfer Station office.  
**\*Annual Sticker or per Trip fee required.**

## Do Compost

Vegetable and Fruit Waste \* Paper Towels and Napkins \* Baked Goods \* Pasta \* Meat and Bone Scraps \* Coffee Grounds \* Pumpkin & Sunflower Seeds \* Corn Cobs & Husks \* Tea Bags \* Dairy Products \* Tofu & Soy Milk \* Egg Shells \* Fish \* Grains (rice, oats, barley, etc.) \* Grease Drippings

## Don't Compost

Walnut Shells (may be toxic to some plants & animals) \* Diseased Plants \* Human or Pet Waste \* Kitty Litter \* Glass \* Plastic \* Metal (e.g. twist ties) \* Cardboard \* Styrofoam \* Rubber Bands \* Aluminum Foil

**For a complete list scan the code or visit the Town website.**

# 5 Reasons to Recycle Textiles at the Transfer Station

GET TEXTILES OUT OF THE LANDFILL - REDUCE THE WASTE STREAM

## Environment Benefit

95% of textiles can be reused. Conserves raw materials, fossil fuels and pesticides.

## Reduces greenhouse gases

Textile recycling decreases the amount of trash we bury in landfills or burn in municipal waste combustors.

## Employment Opportunities

Benefits and generates small local companies and nonprofits and creates jobs.

## Saves landfill space

Keeping used textiles out of the trash reduces disposal costs for local government, businesses and residents.

## Good for the Community!

Donated textiles provide low-cost quality clothing and household linens to residents with a limited budget.

## What to donate:

Clothing, handbags, backpacks, shoes,  
Household textiles (even stained and torn items)  
drapes, towels, sheets, blankets, pillows, stuffed animals

**Textile donations in any condition are welcome by most for-profit and nonprofit textile collectors alike.**

## Unacceptable donations:

wet/moldy items items contaminated with oil or hazardous substances

**Check the textile collector bin for further information about what is accepted.**
