TOWN TALK
Finance Director
Mark Milne

Town of Barnstable Channel 18 debuts a new show to help our residents stay up-to-date with information - around Town Hall, in our Villages and across the region.

Town Talk host Paula Hersey sits down with Finance Director Mark Milne to learn more the Town's tax write -off program. In addition to eligible seniors, eligible veterans can now participate in the program.

Eligible seniors and veterans can perform work for the town in exchange for an abatement on their property taxes up to \$1,500.

Some cyanobacteria blooms can look like foam, scum, or mats, particularly when the wind blows them toward a shoreline.

The blooms can be blue, bright green, brown, or red. Blooms sometimes look like paint floating on the water's surface.

Hyannis Water STATE OF WATER SUPPLY CONSERVATION

The Hyannis Water Board, at their August 16th regularly scheduled Public Meeting, determined that a potential for a water shortage exists due to the level 3 significant drought declaration for the Cape Cod Region by the State of Massachusetts, and to ensure compliance with the Water Management Act.

The Cape Cod Region is in a Level 3-Critical Drought. During Critical Drought conditions, state officials urge residents and businesses to stop all non-essential outdoor watering and minimize overall water use. They also warned that the risk of wildland fires is increased.

MASSACHUSETTS DROUGHT ALERT

August 26, 2022

DROUGHT STATUS

The Massachusetts Executive Office of Energy and Environmental Affairs has declared a **Level 3 – Critical Drought** in the Northeast, Central, Connecticut River Valley Southeast, and now Cape Cod Regions, a **Level 2 – Significant Drought** in the Western, and Islands Regions.

Secretary of Energy and Environmental Affairs:
Bethany A. Card

Acting Director of MEMA:
Dawn Brantley

CURRENT CONDITIONS

The state has experienced over seven months of below normal rainfall and the drought has intensified across the state. Since the onset of the drought, regions are experiencing between a four and ten inch deficit in precipitation. The risk of wild fires is increasing and unusually dry topsoil and groundcover vegetation causing fires to burn deeper and longer. Streamflow is severely impacted with dry stream beds and ponding, higher water temperatures and increased algal growth. Drought conditions are impacting our farms, with losses in soil moisture, more heavy irrigation needed and initial signs of crop loss.

WHAT YOU SHOULD DO

Residents, Facilities & Businesses:

ALL DROUGHT REGIONS

- Conserve water use
- Run dishwashers & washing machines at full capacity
- Take shorter showers
- Fix Leaks
- Be careful with outdoor flames
- **Ban on open flame & charcoal fires at state parks**

OUTDOOR WATER USE RESTRICTIONS

- LEVEL 2: Limit to hand-held 5:00 pm - 9:00 am
- LEVEL 3: **Ban on all non-essential outdoor water use**

Cities & Towns:

- Limit outdoor watering as per drought level restrictions for your region
- Limit new landscapes and outdoor washing
- Check emergency connections and interconnections with other water suppliers
- Implement drought or seasonal water rates
- Establish water use reduction targets
- Establish a leak detection program
- Develop/refine local drought plan for water supply

Follow Local & State Watering Restrictions!

The last word...

Voting is how we participate in a civic society - be it for president, be it for a municipal election. It's the way we teach our children - in school elections - how to be citizens, and the importance of their voice.
Loretta Lynch, Former United States Attorney General
